

Windows 10 and Windows 11

How are they different?

A jargon free guide to the main features Windows 11 has that Windows 10 doesn't

Settings

Power

All apps

Wake on approach

Lock on leave

Live captions

Speech from incoming audio such as a Teams meeting can be automatically transcribed into captions

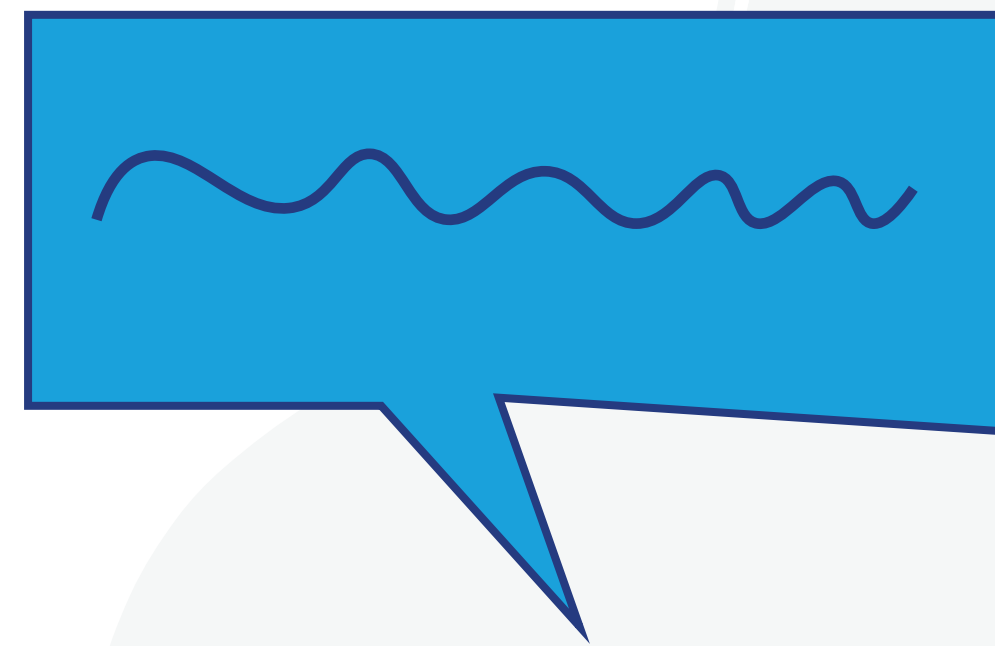

Studio Effects

Background Blur, Eye Contact, Voice Focus, and Automatic Framing for Teams. Better video calling awaits!

Natural Narrator

To read, or to be read to? Natural Narrator can turn text into spoken words

Smart App Control

Smart App Control provides a layer of security by only permitting apps with good reputations to be installed.

Seamless re-docking

If you connect your PC to an external display, Windows 11 can remember where you had those windows when you leave, come back, and reconnect

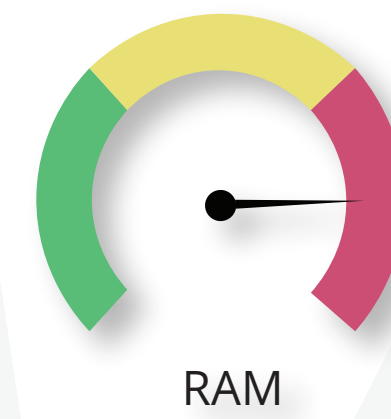

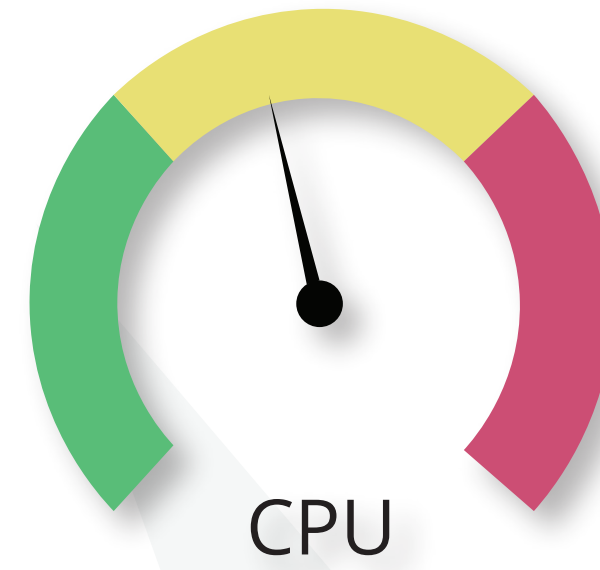

Amazon Appstore

Windows 11 can run more apps from the Amazon Appstore, even ones originally designed for mobile devices

Widgets

Stay up to date on all the information you care about with customisable widgets
